

## Fundamentals

Our new fabrics for this season were created to be key players in any design project, essential to the structure and of central importance.

From plain woven textures to printed patterns and stunning, jewel like embroideries, the designs are subtle and timeless yet new and fresh. Additionally the price points bow to current economics and provide truly good value.

From the Left...

**Vine Cliffe 4043...** The painterly quality of these vines (inspired by the vineyards of the Napa Valley) makes this no ordinary print. Bold yet soft, colored yet neutral, this pattern is most definitely of central importance.

**Sultan 4041...** Something old something new- Modern geometric diamonds embroidered in three different colored yarn selections on a natural linen ground, Sultan would be gorgeous from bedding to window coverings and upholstery. Old world techniques- New world design

**Farrah 4003...**A basket weave texture available in 6 subtle colorways applicable for upholstery and luxurious draping. A slight sheen enhances this elegant fabric.

**Bangkok 4042...**Printed on a beautiful linen ground this rustic batik design has been printed in 2 colorways in a manner that gives it a vintage appearance. Imagine a room entirely gift-wrapped in Bangkok- walls-windows-furnishings WOW!

**Lino 4040...** A fine textured plain with a supple hand comes in 5 heathered colorways. This cloth has the dry appearance of natural linen yet will not wrinkle because of it's viscose content and is also great for draping.
